

RDK Remote Tatlow

High-end RDK remote

Tatlow is a full-size, fully functional voice remote for RDK.

It can be equipped with backlighting and high-end features including proximity and light sensors.

Tatlow is a full-size remote control that's ergonomically shaped and offers a premium feel.

Tatlow is pre-integrated with the RDK Accelerator platform making it a breeze to deploy it with RDK-V set-top boxes.

Optional features include full backlighting and sensors for ambient light and user proximity to make the lighting work in a smart way.
