

Environmental fact sheet 2022

About Universal Electronics Inc. (UEI)

For over 35 years, UEI is the global leader in wireless universal control solutions for home entertainment and smart home applications. We design, develop, manufacture, ship and support products used by leading brands in video service providers, consumer electronics, security, climate control, hospitality and retail markets.

Ambition

Green product, Green power

We design and build high volume electronics and control technology that will help to make the world a sustainable place. We minimize waste, energy consumption and the CO2 footprint. We maximize the lifetime, recyclability and power usage of our products.

2,500T

Recycled plastics processed (tons). This includes regrind and transporting rejected plastics to recycler center.

2.1M

of refurbished RCUs reworked (units)

6.8M

of SUP-free RCUs produced (units)

Green Production initiatives

- Single Use plastics free supply
- Recycle production scrap
- Refurbishment program
- Minimize waste-water
- Minimize power consumption
- Minimize hazardous materials

Green Product initiatives

- Design for Refurb
- Extreme Low Power Silicon
- Energy Harvesting
- Rechargeable batteries
- Energy Management Solutions
- Minimize customer truck rolls

Extreme Low Power

Rechargeable batteries

Solar Charging

Indoor Light Harvesting

RF Harvesting

Energy Harvesting

Energy management

Refurbishment

Single Use Plastic Free

Green Manufacturing

Recycled plastics

Going green is not a luxury

Choose green products
Choose green power
