

About Universal Electronics Inc. (UEI)

For over 36 years, UEI is the global leader in wireless universal control solutions for home entertainment and smart home applications. We design, develop, manufacture, ship and support products used by leading brands in video service providers, consumer electronics, secure, climate control, hospitality and retail markets.

Ambition

Green product, Green power

We design and build high volume electronics and control technology that will help to make the world a more sustainable place. We minimize waste, energy consumption and CO2 footprint. Our products are made to maximize their lifetime through minimum power use and recycle them through product refurbishment.

3,423T*

Recycled plastics processed (tons). This includes regrind and transporting rejected plastics to recycler center.

1.6M*

of refurbished RCUs reworked (units)

1.8M*

of Single-Use Plastic (SUP) Free RCUs produced (units)

*2022 data

Green Production initiatives

- Single Use plastics free supply
- Recycle production scrap
- Refurbishment program
- Minimize waste-water
- Minimize power consumption
- Minimize hazardous materials

Green Product initiatives

- Single Use plastics free supply
- Recycle production scrap
- Refurbishment program
- Minimize waste-water
- Minimize power consumption
- Minimize hazardous materials
