
Security Portfolio of Products

EXPERTISE WITH HIGH PERFORMANCE

A wide range of solutions

Ecolink and UEI have extensive RF resources throughout the globe in support of the development of highly innovative and custom solutions.

Protocol agnostic for all applications:

Security Products

- 319.5 MHz, 345 MHz, 433 MHz
- Compatible with: Qolsys, Interlogix, GE, Honeywell, 2GIG and DSC

Home Automation

- Z-Wave, Zigbee

Our connected home solutions cover everything from thermostats and controllers to sensors and switches, as well as smart home hubs that tie it all together.

SIMPLE AND AFFORDABLE SOLUTIONS

Sub-1 GHz Products

Products are developed with strength in battery-operated wireless devices that are compatible products for 319.5 MHz, 345 MHz, 433 MHz protocols.

Our products have outstanding performance while being cost effective.

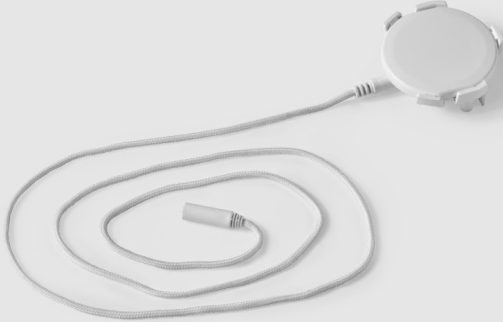

Because of the long range and low-power consumption, sub-GHz networking is particularly well suited to Internet of Things applications.

New Product Release

Q1 2023

Ecolink: 2023 New Releases

	RFID Reader	Flood/Freeze with Rope Sensor	Personal Panic Button	Motion Sensor (PIR)
Sensor				
Features	<ul style="list-style-type: none"> • Easy arming/disarming, simply press the Away/Stay button • Audible beep and the RFID reader blinks green to confirm the RFID tag has been read • Includes 2 pre-pared encrypted RFID tags with the option to pair up to a total of 10 Mifare DESFire Light tags • Powered by four replaceable AA batteries 	<ul style="list-style-type: none"> • Simple installation in high-risk areas: under sinks, toilets, hot water heaters, washing machines • Detects freeze risk and transmits alert • Detects water and transmits flood notification alert avoiding expensive repairs • Sensor Adapter /Mounting Bracket expands installation options • The Water Detection Rope sensor can be routed down the floor covering a larger detection area • Up to 10-year battery life 	<ul style="list-style-type: none"> • Wear it as a watch, on a lanyard or belt clip • Mount it under desk or on a wall • Supports up to three (3) different alerts or commands through button presses <ul style="list-style-type: none"> • Single tap • Double tap • Press and hold • Personalize with compatible smartwatch wristbands • Up to 5-year battery life 	<ul style="list-style-type: none"> • High performing capture algorithm and Fresnel lens pattern. • Decor friendly, designed with smooth rounded front finish and hidden lens. • Mounts to room corners and flat walls • Indoor or outdoor, day or night • 40' X 40' coverage angle • Pet immunity up to 85 lbs. • Up to 5-year battery life

Compatibility

Honeywell

Motion Sensor

Wireless Pet Immune
Motion Sensor

Compatible Panels:

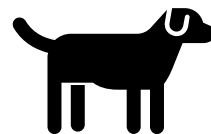

Honeywell

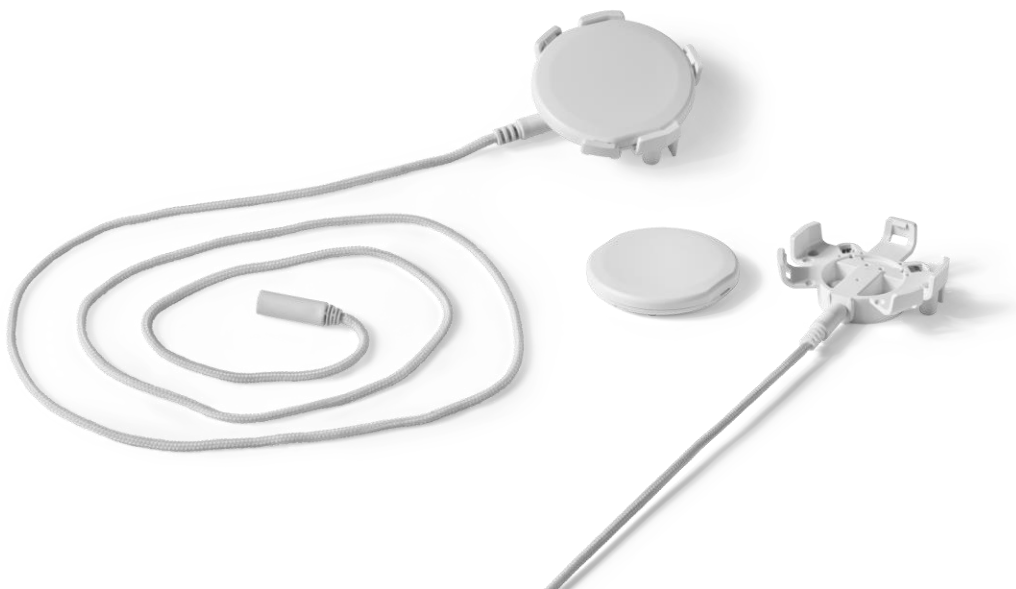

Introducing Ecolink's Newest Wireless PIR Motion Sensor

Our wireless PIR sensor for security was designed with the installer in mind. Our improved form factor motion detector offers an easy, out of the box experience to reduce install time. Features high performing capture algorithm and Fresnel lens pattern.

Pet Immune up to 85lbs.

Flood/Freeze

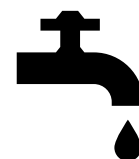

Compatible Panels:

Introducing Ecolink's Newest Flood/Freeze Sensor

Simply place the Ecolink Flood/Freeze sensor in high-risk areas, like under sinks, toilets or near the hot water tank. seconds of detecting water, the unit will transmit an alarm notifying the homeowner of a possible flood before it turns into an expensive repair.

Rope sensor acts as extension of the sensing probe in the leak detector

Panic Button

Compatible Panels:

Direct Line to Help

Portable, wearable, personal panic button designed to summon help in an emergency situation, who can then contact emergency dispatchers. Convenient wearable options, lanyard, belt clip or as a watch.

- One press alarm to dispatch help
- Supports up to three (3) different alerts or commands through button presses
 - Single tap
 - Double tap
 - Press and hold

RFID Reader

Compatible Panels:

Honeywell

Arming/Disarming an Alarm System Has Never Been Easier

Traditional security panels have numbered keypads which can be intimidating, confusing, and stressful to use. Instead of having to remember a code “Something you know,” why not arm and disarm a security system with a single button press, no tag scan needed, or with an RFID tag.

Zigbee Portfolio

COVERING HOME AUTOMATION NEEDS

Zigbee Solutions

Our sensors are Zigbee 3.0 certified and integrate with IoT solutions.

We offer a wide range of products that are compatible with major smart hubs, pro security and home automation brands.

Our home security systems pack the power of whole-home security into an affordable DIY package.

We have you covered from motion detection, thermostats, flood/freeze sensors and our one-of-a-kind Firefighter™.

CO2 Sensor

Compatibility

Measure and Monitor Carbon Dioxide in Rooms

Room air monitoring is usually limited to humidity and temperature. Especially in times of a pandemic, measuring and monitoring CO2 is also very important. Correct ventilation in crowded rooms, will significantly reduce the risk of infections including the coronavirus.

Z-Wave Portfolio

INTELLIGENT TECHNOLOGY

Z-Wave Solutions

Our Z-Wave product portfolio offers sensors and thermostats that are Z-Wave Plus certified.

We provide many choices to suit your needs that are compatible with major smart hubs and gateways.

Our promise is to be reliable by design with optimized RF performance and low power usage resulting in low maintenance operation.

Long Range Garage Controller

Compatible Panels:

Ecolink Introduces First Certified Z-Wave® Long Range Product

Installing the controller to existing garage door operators provides 2200 feet line of site communications between the wireless controller and the paired Z-Wave long-range enabled panel or hub. Until Z-Wave Long-Range panels and hubs are available, the Garage Controller is also compatible with Z-Wave 300, 500 and 700 series panels. Includes Chamberlain Security+ compatibility.

Easy to install and connect via
SmartStart and S2 encryption

Ecolink's Smart Z-Wave Thermostat

- Updating to a TBZ500 smart Z-Wave thermostat is one of the easiest and most cost-effective upgrades dealers can make to increase a home's energy efficiency.
- Pro security dealers will appreciate how easy the TBZ500 smart Z-Wave thermostat is to pair to major security systems, remote management applications and smart hubs within the Z-Wave ecosystem.
- Homeowners will benefit from greater control of their energy usage and remote access to manage and monitor the home's temperature anytime, anywhere.

New Product Concepts

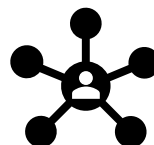

Six-Piece Security Kit

Compatible with the Ecolink
Ecosystem of Sensors

Introducing Ecolink's Home Security Kit

The Ecolink ClearSky Bridge connects to the internet router to self-monitor your home. Each of the devices (Contact Sensor, Motion, Chime + Siren and Key Fob) communicates with the Ecolink Bridge to send alerts to devices based off activity taking place within the system.
